

Opto subsidiary in US signs OEM agreement with another US company for anesthetic gas monitoring technology

Waukesha, USA | Bengaluru, India | 30th September 2009

Opto Circuits (India) Ltd. (OCI)'s wholly-owned US-based subsidiary, Criticare Systems, Inc. (CSI), has forged a strategic multi-year OEM (Original Equipment Manufacturing) contract with another US company to privately label its anesthesia monitor for the signed partner. The agreement leverages CSI's unique anesthesia gas monitoring technology in applications that involve the calibration and maintenance of anesthesia equipment in some of the leading hospitals in the United States.

Vinod Ramnani, Chairman and Managing Director, OCI, commented, "This is further evidence of the technology leadership and market position of our monitoring platforms and expertise in gas monitoring originated by the acquisition of Criticare Systems last year".

CSI is an international medical device company that develops, manufactures and markets patient monitoring and anesthetic gas analysis products.
