

AMDL Health launches Mediaid Ventilators and Anesthesia work stations at ISACON 2012

Indore, India | 26th December 2012

Advanced Micronic Devices Limited's (AMDL) healthcare division – AMDL Health, a leading provider of medical equipment and devices and a group company of Opto Circuits (India) Ltd., today launched Mediaid ventilators and anesthesia work stations at ISACON 2012. ISACON 2012 is going to be held from 26th - 29th December 2012 at Labh Ganga Convention Centre, Indore.

The products to be launched at the 60th ISACON 2012 are Model AD Premium 910 Anesthesia Workstation, Model Vent Care 410 ICU Ventilator and Model Vent Mini Portable Ventilator.

ISACON is the largest annual anesthesia event held in India where experts from the field of Anesthesia and Critical Care come together to share their knowledge and valuable experience.

“We are very glad to be associated with a large anesthesia event in India. Introducing our new products on such a platform will enable us to strengthen our presence in the Indian anesthetic market,” said Mr. Arindam Sen, CEO, AMDL. He further added that, “This is a step forward in our commitment towards launching technologically advanced devices in the Indian healthcare market.”

Mediaid is a wholly owned subsidiary of Opto Circuits specializing in pulse oximetry, multi-parameter monitoring and digital temperature measurement.

Model AD Premium 910 Anesthesia Workstation is an anesthesia machine for neonatal pediatric and adult used by anesthesiologists to support the administration of anesthesia. Model Vent Care 410 ICU Ventilator is an intensive care unit (ICU) ventilator used to assist or replace the spontaneous breathing of an ICU patient. Model Vent Mini Portable Ventilator is a portable ventilator that helps patients to breathe when they are suffering from respiratory illnesses and can either be used at home or carried to other locations.
